

VINAYAK INTERNATIONAL SCHOOL

An English Medium Co-Educational School

PROSPECTUS

DR. SANGITA AGARWAL
(MBBS, MD)
Chairperson

We are the team of Doctors who strongly believe in education. We understand the importance of education to shape a person's life , that is why we decided to come together with a futuristic school, "Vinayak International School" at Faridpur. The school will add a new grade each year up to the next level till class 12th. So that the children in the city only concentrate on Curricular and Co-curricular development instead of spending extra time in travelling to school far off. We are liable to provide the best Teaching-Team, big and spacious classrooms, huge play-ground equipped with all desired sports items, well establish computer lab, huge library with informative books in our School. We are committed to update each and every corner wherever required. We wanted to give our best to the students and parents who are associated with us.

With warm regards.

**“Intelligence plus character that is
the goal of true education.”
– Martin Luther King Jr.**

I believe my role as an educator is to guide and nurture the next generation to establish skills to achieve health, respect, prosperity and fulfillment.

I am passionate about students being empowered to succeed. I use all tools available to inspire staff, students and community to work together to promote student achievement and well-being.

I am an avid supporter of effective and innovative professional development that encourages teachers and principals to be reflective and to continuously examine our practice to provide quality teaching and learning for each student. My role as Managing Director is to keep up with latest trends and research and be an active partner in the school's professional development.

The ability to be innovative and creative is important to me. I enjoy being challenged and inspired by the people around me. I aim to enthuse and challenge staff and students to also be inventive and imaginative in their learning and day today tasks.

I believe that having quality, inspirational and passionate teachers is essential to a school's success. I enjoy celebrating successes and acknowledge hardwork of staff, students and community and believe this is one of the contributors fundamental to a happy school environment. All staff, students and community should feel valued and appreciated at school.

Community engagement and involvement in the school is important to me. I regularly consult with my community as part of school self review and encourage community engagement in the curriculum and learning programmes.

We offer a CBSE Broad curriculum and a range of opportunities for all our students to achieve excellence in academic, creative, social, cultural, sporting and community endeavours. We value collaborative learning, positive relationships and building capacity amongst our students to effectively allow them to engage in the world of the future, where problem solving, evaluating, working in teams, communicating, creating and innovating are not only valued concepts, but expected skills, attributes and capabilities.

“Do the work with intention not because of compulsion.”

With all my love, best wishes and blessings.

Mrs. REENA VARMA
Managing Director

MISSION

The Mission of the school is to provide an environment that lays emphasis on intellectual, spiritual, social and emotional growth in which every student discovers and realizes his/her full potential and highest academic standards are achieved. Where the emphasis is laid on integrity, ethics, moral courage, hard work, responsibility, honesty, truthfulness, helpfulness, love, respectfulness and self-discipline. Where all activities focused on developing visionary, articulate and confident individuals with sensitivity and concern for the less fortunate, the environment, diversity and communal harmony, human rights and democratic values. Where teachers, parents and the administration work together as a nurturing community so students can cherish each and every moment spent in the school to learn and ready to serve the community.

VISION

We enlighten the life of your ward with education, moral discipline, ethics, tolerance, cooperation, sportsman spirit, manners and knowledge in different subjects that carves them into a sharp personality and prepares your ward well for the practical life.

ACADEMICS

FOR CLASS 1ST AND ONWARDS

The Five Areas of Development is a holistic approach to learning that strives to break down the silos in education and ensure the development of a learner in all Five areas of Development - **Cerebral, Emotional, Physical, Social and Spiritual**. Through this process of development, we hope to inspire our learners and equip them with the skills and processes that will help them navigate new content and challenges that the future might present. Vinayak International School, has developed a holistic curriculum focusing on the 5 Areas of Development. Each area is given equal weighting and the interconnection between all areas is emphasized.

1. Cerebral Development (the academic area) emphasizes communication, comprehension, critical thinking and curiosity to enhance academic learning.

2. Physical Development focuses on health, fitness and sports. It also involves developing control over the body, particularly muscles and physical coordination.

3. Social Development supports students to get involved in their communities, work towards common goals and understand themselves and others.

4. Spiritual Development is focused on core values, awareness and practice, rather than on a particular religion.

5. Emotional Development encourages learners to pay attention to their emotions in order to identify, understand and express them positively and productively.

ACADEMICS

FOR PRE-PRIMARY

Child development is a process every child goes through. This process involves learning and mastering skills like sitting, walking, talking, skipping, and tying shoes. Children learn these skills, called Developmental Milestones, during predictable time periods. Children develop skills in five main areas of development:

1. Cognitive Development:-

This is the child's ability to learn and solve problems. For example, this includes a three-years-old child is learning alphabet or a five-year-old child learning how to do simple math problems.

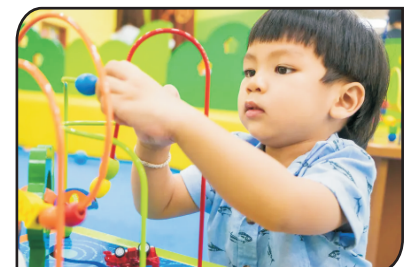

2. Social and Emotional Development:-

This is the child's ability to interact with others, including helping themselves and self-control. Examples of this type of development would include , a three-year-old child walks in a line or a five-year-old child wait for his/her turns in games at school.

3. Speech and Language Development:-

This is the child's ability to both understand and use language. For example, this includes a two-year-old child naming parts of her body, or a five-year-old child learning to say "feet" instead of "foots".

4. Fine Motor Skill Development:-

This is the child's ability to use small muscles, specifically their hands and fingers, to pick up small objects, hold a spoon, turn pages in a book, or use a crayon to draw.

5. Gross Motor Skill Development:-

This is the child's ability to use large muscles. For example a two-years-old child learns how to build a tower or a five-year-old learns to skip.
